

NORTH STAR IS SHOWING HIGH GRADE ORE BODY

Operations on Ten Fifty Level
Result in Streak of Ruby
Silver Being Exposed

A new ore body has been opened on the 1050-foot level of the North Star mine in the footwall back of the old Heney stope that promises to yield a considerable amount of high-grade mill ore. A crosscut back into the footwall country opened six feet of quartz which assayed around \$6 per ton. A raise was started and in eight feet struck a streak of high-grade.

At 15 feet above the level the vein narrowed to two feet of rich ore. The ore was found in a block of argenteous splashed with ruby silver ground that has not been explored for a length of 400 feet and a height of 200 feet. If the high-grade holds out Superintendent A. E. Lowe expects to be able to mine the entire vein, making a mill product around \$30 per ton.

BELIEVE BOOM IN ALASKA FOR OIL IS CLOSE

Big Interests Will Soon Start
Drilling for Liquid Gold in
Cold Bay District

ANCHORAGE, Alaska, Oct. 2.—Announcement that big oil interests will soon start drilling for oil in the Cold Bay district of Alaska promises rush days to life again, according to the thrilling scenes of gold men who have visited the new fields recently. For this new oil country, say those who know something of the hardships attendant upon a stampede, is probably more rigorous than the wind-swept reaches surrounding Cape Nome.

The Barrens at Cold Bay offer no shelter against the sweep of the wind and the absence of fuel, save beach wood and paraffine, will add to the suffering of the prospectors who plan to invade the country.

The uninviting prospect, however, will not hold back the adventurers, for already the regular steamers and launches plying between Seward and Kodiak are booked to capacity weeks ahead. Of these the men entering Alaska will have the advantage of being outfitted for an indefinite stay and already hardened to the rigors of the northern winter.

Rival interests have been shipping lumber and supplies into the district for some time and the erection of mushroom towns is expected to soon take place at several designated points. Many of the promoters, according to those on the ground, are merely there to make their stake out of the general conditions surrounding the boom. Of the others who are joining the rush, some are only going in for the adventure, while a few will seriously attempt the exploitation of the resources presumed to be there. The announcement has served to stimulate interest in other parts of the territory and efforts are being made to attract attention to discoveries made in the Anchorage and Sushitna valleys.

FAVORS ADMISSION OF WOMEN TO RABBINATE

CINCINNATI, O., Oct. 2.—Rabbi David Philipson of one of the largest Jewish synagogues here places himself on record as favoring the admission of women to the rabbinate, an almost revolutionary step. In an editorial in a recent issue of the American Israelite. In his article he traces the history of the religious emancipation of women from the days when they were segregated in the synagogues in special balconies as "religiously inferior" to the present, when they are firmly established in the congregations of the reformed churches.

"Every form of change which granted woman more religious freedom has been fought as a break from the past," the editorial states, "and it is upon this ground that the admission of women to the rabbinate will be fought. Such arguments are futile in view of the advance of woman in every sphere."

"Who knows but that some woman may rise who, gifted with the prophetic fire of a Deborah, may arouse the hosts of Israel out of their indifference and lead them on to conquer new spiritual heights? The dead hand of the past should not be permitted to close the door of opportunity that may open out to great vistas."
